PROFESSIONAL SUMMARY

Software Developer with strong knowledge of Java, Object-Oriented Programming, SQL, and Web Development. Hands-on experience in building web applications using Java, Spring Boot, HTML, CSS, JavaScript, and MySQL, with practical exposure to full-stack development through internship and academic projects. Strong problem-solving, analytical, communication, and teamwork skills with a keen interest in developing reliable and scalable software solutions.

TECHNICAL SKILLS

Programming Languages: Java, C/C++, Embedded C
Core Java Concepts: OOPs, Collections, Exception Handling, Multi threading, File Handling, JDBC
Database: MySQL, SQL, Firebase Realtime Database
Framework: Spring Boot, Spring MVC, Spring Security, React
Web Technologies: HTML, CSS, JavaScript, REST APIs, Responsive Web Design
Tools & Platforms: Eclipse, IntelliJ IDEA, VS Code, Git, GitHub, Postman, Maven, XAMPP
Soft Skills: Problem Solving, Team Collaboration, Communication, Adaptability

INTERNSHIP EXPERIENCE

Java Full Stack Intern – BDreamz Global Solutions 06/2026 – Present | Chennai

- Developed Java Spring Boot-based web applications using HTML, CSS, JavaScript, and MySQL, implementing backend services and application functionality.
- Built RESTful APIs using Spring Boot and Core Java, applying OOP principles and integrating MySQL with SQL queries for efficient data management.
- Performed API testing and systematic debugging using Postman, while managing source code and development workflows using Git and GitHub.

Web Development Intern - CodeAlpha 12/2025 | Remote

- Developed responsive and interactive web interfaces using HTML, CSS, and JavaScript, implementing structured layouts and dynamic frontend functionality.
- Built and refined frontend web projects with responsive design and JavaScript-based interactions, strengthening practical skills in web development and user interface implementation.

PROJECTS

Smart Vehicular Trust System Using Adaptive Blockchain and Cloud Management

- Developed a vehicle trust-management system using Java, Spring Boot, Firebase Realtime Database, and REST APIs to process and verify vehicle-related information.
- Implemented SHA-256 hashing and blockchain concepts for secure, tamper-resistant trust information, with HTML, CSS, JavaScript, and Chart.js for data visualization.

REST API Projects – Bank, Bookstore & Swiggy

- Developed multiple REST API applications using Java, Spring Boot, MySQL, and REST APIs, implementing CRUD operations and database integration.
- Implemented Spring Security and role-based access control in the Swiggy application, supporting different user roles and secured API access.

Web Applications – DevTrack, SkillGap & Smart Study Planner

- Developed interactive web applications using React, HTML, CSS, and JavaScript, implementing responsive interfaces and application-specific functionality.
- Used JavaScript and Local Storage to manage client-side data and application state in projects such as SkillGap and Smart Study Planner.

EDUCATION

Bachelor of Engineering - Computer Science And Engineering 2022 – 2026 | Perambalur, TamilNadu
Dhanalakshmi Srinivasan Engineering College(Autonomous) | CGPA: 8.43

Higher Secondary Education (Class 12) 2021 – 2022 | Perambalur, Tamil Nadu
Sri Ramakrishna Girls Matric Hr. Sec. School | Percentage: 88.6%
